

## Hand signals for crane operations

Hand signals play a vital role in crane operations. If signallers use hand signals to communicate with crane or hoist operators, the following hand signals must be used, as set out in B.C.'s Occupational Health and Safety Regulation. If you haven't been properly trained in how to use hand signals, talk to your supervisor or employer.

### Hoist

### Lower

### Use main hoist

### Use whip line

### Raise boom

### Lower boom

### Move slowly

### Raise boom and lower load

### Lower boom and raise load

### Swing

### Stop

### Trolley Travel

### Dog everything

### Travel (both tracks)

### Travel (one track)

### Extend boom

### Retract boom

### Magnet is disconnected

### Open clamshell bucket

### Close clam shell bucket

### Hoist slowly to clear fouled line

### Travel

### Multiple trolleys

### Whip line
